SUBJECT

Estimate for the new silk filature building at Mysore.

D. No. 3332-3 Q&S-30

To

Sir, I am directed to say that a sum of Rs. 18,750 has been provided in the Agricultural budget for 1930-1. for expenditure in connection with the construction of a silk filature building at Mysore

Ser. 45-29-1

DEWAN'S MINUTE.

FILE No. 2889

GEN. & REV. SECRETARIAT 192 5 NOV. 1929 DEVELOPMENT BRANCH

DEWAN'S OFFICE. 4 - NOV. 1929 No. 3892

Secy - Dev. Dpt.

Have you got plans ready for the proposed new filature building at Mysore? If money is available a compound wall may be put up - Sketch enclosed. I can mark exact position of the wall of the ~~land~~ Supdt when I go down to Mysore in a few days.

JM
3-11-29

Rec'd 4 11 29

Letter No D.4482 dated 5th Nov. 29 to the Executive Engineer requesting him to get plans and estimates for the New filature building ready and submit Demi-official report in this connection.

Copy to Dir. Dpt - No. D. 4483 dt 5/11/29.

Letter No. Dy - 29-2-28 dt 21st Nov. 29 from the Dir. Dpt. Stating that the Estimate of the compound wall of the proposed Filature Building may be met out of the allotment of Rs. 5100 for the Construction of quarters on the Channapatna Farm premises

Letter No. 29/28 dt 20th Nov. 1929 from

Serial No.

the Superintendent of Servicehouse reporting that a fresh site has been selected for the new Malaria building at Doddaholageri, and intimating that the amount provided for the construction of quarters at the Farm premises at Channapatna may be used for the Compound wall of the proposed building.

2 Submitted with references.

3 Govt. have recognised the necessity for the provision of quarters for the staff at Channapatna and as a first instalment, sanctioned Rs. 5,000/- during this year. Whether the Construction of a compound wall cannot await till next year, and if the Construction of official staff quarters at Channapatna should be put off are points for Consideration.

18.27.11.29.

4 The DA is stated that the E.E. Bangalore Dn has been asked to furnish plans and estimates for the staff quarters at Channapatna. The Dn may perhaps be asked to ascertain definitely and intimate when the work is likely to be taken up during the current year and what the probable outlay may be. The Dn may also be asked to report the outlay required, with estimates, on the compound wall of the Malaria building.

General and Revenue Secretariat. Ser. File No. 45 of 1929.

Serial No.

DEWAN'S OFFICE 1929 No. 2666

The provision for putting up quarters for staff in Chamanpatan Farm is the first instalment towards providing a long felt want, which has affected the efficiency of this premier seri-cultural institution; and I feel that the allotment shd not be diverted to any other purpose, however desirable in itself. The Filature being treated as a Commercial concern, there wd be any anomaly in reappropriating funds from the budget of the Dept for expdre on Filature buildings.

The Supdg Seri says that a site for the Filature has been selected and approved. All the money required for the buildings (and the compound wall) may perhaps be provided next year as a capital grant to the Filature.

I am not very hopeful about this h

30) Returned, with compliments.

2. The estimate as sanctioned amounts to Rs.23,750/-. It may however be stated that the rates for certain items of works are high as noted below:-

(i) Two saw-tooth roof trusses are used for covering a total span of 42 feet with one row of stanchions in the middle. Details and calculations for these are not given so also for the stanctions below. The provision of Rs.100 made for each truss of 22 feet span is too much.

(ii) The rate of Rs.2 for teak wood ventilators is high. This should be Rs.1-8-0 per Sq.Ft. The rate of 41-8-0 per running foot for a 12" zinc gutter is also high. Re.1 to Rs.1-4-0 seems enough.

3. There is no report about the nature of foundations, with calculations, etc.

4. As this is an urgent and a large grant has to be worked out before the close of the current official year, the Superintending Engineer, Mysore Circle, proposes that quotations may be called for instead of tenders, to avoid delay. This may be approved.

3-3-30

Chief Engineer of Mysore.

HRR/3rd.

31) The estimate may be sd. Since quotations are to be called for, and the most favourable rates will be accepted the [illegible] noted by the C.E. may perhaps be overlooked.

32) The Chief Engr's proposal to call for quotations instead of tenders

6 Letter no. 04-292-28 dt 12th March 1930 from the Dir- dtg requesting provision of Rs. 5514/- in the next year's budget for wire fencing & shifting the present fencing & Structures etc.

Letter no. 11042-912.3-30 from the Ch. Engr requesting sanction to the estimate for the Filature Building.

39 Draft. Sorted for orders. The contents of dtg. 6 & 7 abstracted above have also been made use of in putting up this draft.

18.15.3.30.

40 The Dir in his letter of 12th Mar 30, (Sl. 6) requests that a provision of Rs 5514/- may be made in the next year's budget for shifting the present fencing to the new filature site, and putting up a wire fencing, in addition to the balance required for the completion of the training & the Park of the Site to be laid to the Municipality. The Dir recommends that instead of an ordinary compound wall which is estimated to cost Rs 6900/- wire fencing may be adopted as this Work only about Rs 1700/-. This proposal is for orders.

41 The value of the Site has not been estimated

NOTE—Contn. sheet.

~~Case as this may be Issue. and next within the~~ and may be ascertained from the Dir, as if this amount is appreciable, Separate provision in the budget for it will be necessary.

42 Assuming that wire fencing is adopted, the provision in the next years budget for the proposed building will be Rs ~~18706~~/- 19264/-. Fl Secy may be requested requesting the provision of this amount. Pending decision as to the actual provision to be made in the next years budget, the amount need not perhaps be specified in the draft G.O. ~~No draft G.O.~~

43 Draft submitted for approval.

Engr 15/3/31

Secy

44 Clean copy is received

18 3 30

Engr 18/3/31

45 Sorted with with a clean draft.

46 Orders are required on the following points which have to be made clear in the draft:-

(i) Provision to be made in the next years budget. Rs. 19,264/- is absolutely necessary excluding the value of site. The above mentions that appropriate provision will be made in the next years budget.

23,750 - 10,000 = 13,750 + 5,514 = 19,264

(ii) The value of materials that has to be supplied by the Chief Engineer has to be determined - Vide para 23, page 7 of the note.

This seems unnecessary now, as no contractors have been finally selected. Any credit received on account of materials may be taken into account when a revised estimate is submitted.

9.3.30.

Engineers to see that work to the extent of Rs 10,000/- is done before the end of the current official year.

Letter no. D4-1120-29 dated 4th April 30 from the Dir. D&S requesting Sanction to the provision of Rs. 29,000 in the next year's budget of the Secr.- Dept. for capital expenses connected with Govt. Silk Filature 50. The details for Rs. 29,000/- are :—

Rs. 13,750/- Completion of Fil. Building
" 3,806 - Shifting old Fil: Shed
" 1,708 - wire fencing
" 4,000 - payment for basins
" 4,000 - Installation charges
" 1,500 - well boring
" 236 - Miscellaneous.

51 As regards Rs. 4000/- asked for for payment of basins, the Dir. has in another Connection stated that he expects to pay them ~~in connection~~ out of the profits realised by the Sale of Silk to Messrs Narayana Rao Naik and Ishwarsa. As the Dir. proposes to purchase some French basins from Mr. Ramakrishnam, some provision appears necessary. Whether the French basins which are some years old can be worked with advantage along with the Mysore basins is for consideration before the basins can be purchased. Subject to orders.

Dear Sir,

Subject - Proposed new building for the Government Filature at Mysore

---

With reference to your D. O. letter No. D. 4482/Seri. 45-29-1 dated the 5th Novr. 1929 to the Superintendent of Sericul-ture, I enclose herewith copy of a letter received from the Superintendent of Sericulture in this connection. He reports that the money required for enclosing the Filature site with a compound wall will have to be found from the grant of Rs 5,100/- provided for the construction of Quarters on the premises of the Channapatna Silk Farm.

Government have in their order No. D. 8767-68/Seri. 26-28-6 dated the 25th February 1929 directed that the cost of the quarters amounting to Rs 20,400/- may be spread over 4 years commencing from 1929-30 and a provision of Rs 5,100/- has accordingly been made for this purpose during the current year. If the work of enclosing the Filature site with a compound wall is to be done urgently, the above amount of Rs 5,100/- may be utilised for the purpose and the work of beginning the construction of Quarters on the Channapatna farm premises may be taken up from next year.

Yours sincerely,

R Ranganadhan

N. Rama Rao, Esq., B.A., B.L.,
Secy. to Govt. Dev. Departments,

***

A provision of Rs 5,100/- has been made in the budget of my department for 1929-30 for putting up quarters to the staff working in Channapatna Farm. In my letter No. 68 of 4th July 1929 I had requested that the work of construction of the quarters may be entrusted to the Executive Engineer, Bangalore Division, and a communication had been sent to the Executive Engineer, Bangalore Division, from the Director's Office asking for plans etc. I do not know how the matter stands at present. I do not know whether the construction work can be taken up and finished during the current year. If there is no likelyhood of the work being taken up and - finished before the end of June 1930, I wish to utilise the amount for constructing a compound wall around the new Filature building at Mysore as per Development Secretary's No. 4482 of 5-11-1929 as I may not be able to find money for this purpose from any other head in the budget of my depart -ment.

I shall be obliged if you will kindly send me a reply in the matter.

OFFICE OF THE SUPDT. OF SERICULTURE IN MYSORE.
EXHIBITION BUILDINGS,

Mysore, 20th November *192*9.0

29/12

21-11-29

Dear Sir,

As desired in your D.O.No. D.4482/Seri.45-29-1 dated 5th November 1929, I met the Dewan on 18th instant at Mysore, when he inspected the site for the new Filature building. The site which had been originally selected has been changed and a site along the Manantody Road opposite the Church in Doddaholageri was selected yesterday. The area required will be marked out.

The Dewan asked me to furnish Mr. Krumbiegel with a list of buildings that have to be put up on the site and said that Mr.Krumbiegel would give me further instructions regarding the position of the Compound Wall etc.

I am afraid it will not be possible to find money for the compound wall in the budget of my Department for the current year. Estimates have already been submitted to Government for constructing the Grainage Buildings at Mugur and Sidlaghatta. I do not think that any money will be available for other purposes, out of ₨12,000/- sanctioned for the above two buildings.

There is a provision of ₨5,100/- for constructing Quarters for the staff at Channapatna. The Director of Industries & Commerce had requested the Executive Engineer, Bangalore Division to send plans and estimates for those buiddings. I have requested the Director of Industries & Commerce to intimate to me if the plans and estimates have been received and have also suggested that the amount may be used for putting up a compound wall around the site at Mysore in case there is no likelihood of the construction of the Quarters at Channapatna being taken up and finished during the current year.

Yours sincerely,

H. S. Govinda Rao

SIR,

With reference to your memorandum No. 4483 dated the 5th Novr. 1929 forwarding a copy of your demi-official letter of the same - date to the Superintendent of Sericulture, I have the honor to sub- mit an extract from the letter of the Superintendent dated the 21st Novr. 1929 that the Dewan Sahib was pleased to select a site for the new Filature Building at Mysore on the 18th idem.

I beg to state that two alternative plans and estimates for the - building were forwarded to Mr. G. H. Krumbiegel for favour of his expert advice. The enclosed plan has received the approval of Mr. Krumbiegel and the estimate prepared in accordance with this plan has also been scrutinised by him. I enclose a copy of his letter dated the 13th instant on the subject. The total estimate for - the building amounts to Rs 24,352/-. The building will measure 160' in length and 42' in breadth. It will for the present accommodate the filature plant as well as the offices of the Assistant Superin- tendent of Sericulture in charge of Reeling Operations. It is pro -posed to shift the present structure in which the Filature plant is located to the new site for use as Godowns for cocoons etc. A separate estimate for the shifting of this structure will be submitt -ed in due course.

With a view to minimise the capital expenditure, I am of opinion that a separate compound wall to the building is not at present neces -sary.

10

necessary. It would perhaps be sufficient for the present to have a wire fencing along the road. If however government de -sire that a Compound wall should be put up, I shall submit - separate proposals for the purpose. In the meanwhile, I request that a capital grant of Rs 24,352/- may kindly be provided for the Filature Building in the next year's budget.

I have the honor to be,
Sir,
Your most obedient servant,
C. Ranganatha Rao Saheb
Director.

GEN. & REV. BRANCH 6548 1 FEB. 1930 DEVELOPMENT BRANCH

To

N. Rama Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
Development Departments, Bangalore.

SIR,

Subject - New Building for the Government Silk Filature at Mysore

With reference to Government order No. D. 8312-14/Seri. 21-29-4 dated the 25th Jany. 1930, ordering that the grant of Rs 10,000/-intended for repairs to the present Filature Building may be used before the close of the year for the proposed new Filature Building, I have the honor to request very early sanction of Government to the estimate for the new building for Rs 24,352/- submitted with my letter of even No. dated the 21st Jany. 1930.

The Executive Engineer, Mysore, will be requested to take up the work of construction as per the plan submitted by Mr. G. H. Krumbiegel immediately after the sanction of Government is received. The estimate for the building has not been scrutinised by the Executive Engineer. It was prepared in this office and checked by Mr. Krumbiegel. With a view to avoid any delay that may occur if a separate estimate should be prepared by the Executive Engineer before the erection of the building is started, I request that the Chief Engineer in Mysore may be requested to authorise the Executive Engineer to take up the work of construction as per approved plan at once and submit a regular estimate if any revision of the present estimate should be found necessary by the Public Works Department. The amount of Rs 10,000/- available in the budget will be sufficient to meet all the outlay that may be incurred

incurred during the year.

I have the honor to be,-
Sir,
Your most obedient servant,
C. Ranganatha Rao Sahib
Director.

Mr. C. RANGANATHA RAO SAHIB, B.A., B.L.,
Director.

OFFICE OF THE DIRECTOR,

Bangalore, dated the 11th Feby. *193*

Please put up the plan

Dear Mr. Rama Rao,

I enclose copy of a letter received from Mr. H. S. Govinda Rao (No. 4330 dated the 6th Febry. 1930) to the effect that the Dewan expressed on the 4th instant that he had not seen the -- plan of the new Filature Building prepared by Mr. G. H. Krumbiegel. This plan was sent to you with my letter of even No. -- dated the 21st Jany. 1930.

Yours sincerely,

C. Ranganatha Rao Sahib

N. Rama Rao, Esq., B.A., B.L.,
Secretary to Government, Development Departments,
Bangalore.

CRS/USC)

Letter No. 4330 dated 6th February 1930, from the Office of the Supdt. of Sericulture in Mysore, Exhibition Buildings, Mysore, to the Director of Industries and Commerce in Mysore, Bangalore.

As desired in your No.D.4-292/28-29 of 30th January 1930 I had a talk with the Executive Engineer, Special Division, Mysore, regarding the new Filature Building. He told me that it would not be difficult to spend Rs.10,000/- before the end of June 1930 provided the building work is started earlier than April 1930, as the Executive Engineer can call for tenders after the receipt of the plan and estimate from Govt. as a month's time has to be given for receiving tenders and as the received tenders have to be accepted by the Chief Engineer since the estimate of the building is above Rs.20,000/-. All these take some time and probably the actual work will commence about the middle of April 1930. I believe that a sum of Rs.9,000/- only may be spent during the current year leaving Rs.1000/- for use on other items of work in the Department for which money is required.

Mr. Karve told me on 4th instant that in the course of conversation with the Dewan, the Dewan Sahib told Mr. Karve that he had not seen the plan of the Filature building prepared by Mr. Krumbiegel and that he would like to see the same. When the Dewan Sahib selected the site on 18-11-1929, I had the plan with me but as the Dewan Sahib was in a hurry he could not see the same when I offered to show the plan to him. I beg you will kindly arrange to show the plan to the Dewan Sahib at Bangalore early if possible. Otherwise, the plan may be sent to me or to the Executive Engineer, Special Division, Mysore, before 14th instant as the Dewan Sahib is expected to pay a visit to Mysore on 15th instant so that the same may be shown to the Dewan.

P.T.O

17

Dewan Sahib at Mysore.

When I saw you at Bangalore on 11th December 1929, I gave you a rough sketch of the site selected for the Filature. I have got the area marked out now with the help of the Overseer of the Trust Board. The total area of the site is 11 acres 30 guntas and 106 Square yards. Please write to the Chairman, Mysore Trust Board to hand over the site to me early.

Director of Industries and Commerce in Mysore,
(Bangalore, India.).

SECRETARIAT 7849 1930 BRANCH

To

N. Rama Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
Development Departments, Bangalore.

SIR,

Subject - New Building for the Government Filature at Mysore

In continuation of my letter of even No. dated the 21st/22nd January 1930 on the above subject, I have the honor to submit here-with the following estimates received from the Superintendent of Sericulture with his letter No. 4694 dated the 19th Febry. 1930, a copy of which is also enclosed -

	Work	Cost
1.	Shifting the present Filature Shed to the new site for use as Godowns, Stores etc.	3,806/-
2.	Compound wall with gate	6,900/-
	or	
3.	Wire fencing with gate	1,708/-

It is necessary to shift the present structure in which the Filature plant is located to the new site for use as godowns for cocoons, stores etc. The estimate for this work amounting to - Rs 3,806/- may therefore be kindly sanctioned.

It is estimated that the cost of enclosing the whole site with wire fencing and providing gates also will amount to Rs 1,708/- only. I request that this may be sanctioned in view of the fact that the cost on this account is nearly one-fourth of the cost required for the compound wall.

The total sum of Rs 5,514/- required in connection with the above

two works will be included in the budget of the Sericultural Section for next year along with the grant required for completing the Filature building and the price payable to the Municipality for the Site.

I have the honor to be,
Sir,
Your most obedient servant,

C Ranganadha Rao Sahib
Director.

4694 & 5 *Mysore,* 19th February. 1930.

FROM

H. S. GOVINDA RAO, ESQ., B.A.,

Superintendent of Sericulture in Mysore.,

MYSORE.

To

C.Ranganatha Rao Sahib, Esq., B.A., B.L.,

Director of Industries and Commerce in Mysore,

BANGALORE.

SUBJECT AND REFERENCE—

SIR,

With reference to your No. D4-292/28 of 22nd January 1930 asking me to submit estimates for shifting and reconstructing the present Filature shed etc., I have the honor to submit herewith copies of estimates received from Messrs. C.Mudaliar and Sons. The cost of dismantling, shifting, and reconstructing the present Filature Shed comes ~~to~~ up to Rs.3,806/- only as per the estimate.

The new Site for the Filature Building was inspected by you on 18-2-30. If the whole area of 11 acres and 30 guntas has to be enclosed with a compound wall, the total cost including gates etc would come up to Rs.6,900/-only as per the estimate enclosed herewith.

If the area is enclosed with wire fencing only the cost would amount to Rs.1,708/- only including gates etc, as per estimate enclosed.

I think

25

I think it is enough if the whole area is enclosed with wire fencing at a total cost of Rs.1,708/- only. The amount required for shifting and reconstructing the Filature Shed and for wire fencing have to be provided for in the budget for 1930-31.

I have the honor to be,
Sir,
Your most obedient servant,

Superintendent, [illegible]

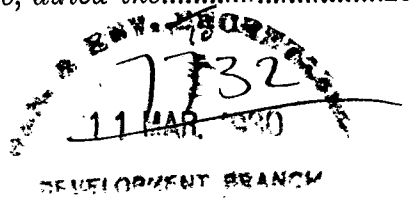
Mr. C. RANGANATHA RAO SAHIB, B.A., B.L.,
Director.

OFFICE OF THE DIRECTOR,

Bangalore, dated the 7th March *193* 0.



Dear Sir,

The plan of the proposed new Filature Building at Mysore was sent to Government with this office letter of even No. of the 31st Jany. 1930.

The Executive Engineer, Mysore, wants the plan of the build-ing immediately to enable him to obtain tenders for the work a part of which will have to be completed before the close of the current official year. It is stated that the tenderers find it difficult to submit quotations without reference to the design. I am therefore desired to request that the plan of the building submitted with the letter referred to above may be kindly return-ed immediately for being forwarded to the Executive Engineer. Fresh copies of the plan are not available for the purpose.

Yours sincerely,
D Ananthanarayan

E. V. Ganapathi Iyer, Esq., B.A., B.Sc.,

Subject :- Construction of a new building for the Government Silk Filature at Mysore.

Sir,

In continuation of this office U.O.No.193 dated 4th March 1930, I have the honor to forward herewith a copy of the letter No.10216 dated 7th March 1930 together with the quotations for the above work received from the Superintending Engineer, Mysore Circle and to request that the sanction to the estimate and approval to the lowest tenders may be communicated early.

I have the honour to be,

Sir,

Your most obedient servant,

J. Bhore 11.3.30

CHIEF ENGINEER OF MYSORE.

K.J.P.

32

Letter No. 10216 dated the 7th March 1930, from the Superintending Engineer, Mysore Circle, to the Chief Engineer of Mysore.

Construction of a new building for the Government Silk Filature at Mysore.

With reference to your No. 10725 dated the 5th March 1930, I have the honor to submit herewith, for orders, the two quotations for the above work together with a comparative statement received from the Executive Engineer, Mysore Special Division, this day.

The work portion of the estimate inclusive of contingent charges amounts to Rs 23,192/=.

Out of the two quotations, that of Mr. Bhaskariah is in excess of the estimated cost by Rs 1,402/=, while that of Messrs. Ramakrishniah ~~is-in-excess-of-the-estimate-cost-by-Rs-1,402/=~~ and Aktar Ali is lower by Rs 1,143/=. The Executive Engineer states that Messrs. Ramakrishniah and Aktar Ali have done some important building works in his Division satisfactorily and promptly and recommends that this work also may also be given to them. As their quotation is also cheaper by over Rs 2,500/=, I agree with the Executive Engineer and recommend that the quotation of Messrs. Ramakrishniah and Aktar Ali for favour of immediate acceptance as a large sum of Rs 10,000/= will have to be worked out during the very few remaining months of the current official year.

Order No.D.

Order No.D. 10520-22/

Dated, Bangalore, 25/3/1930.

L. 4801-3/
Agr 118-21-S3
2.2.22. I

The Filature at Mysore which was started in 1922 on an experimental scale with 12 basins in a Zinc Shed which was adapted for the purpose, has now developed to a size which renders it urgently necessary that it should be provided with a building of its own, with sufficient accommodation for its growing needs, and satisfying all the requirements of a factory. The present building is not only incommodious but also suffers from draw backs which seriously affect the health and efficiency of labour. With a view to enable this important institution to conduct its operations to advantage, Govt. consider it necessary to construct for it a building specially designed to meet its requirements. They are accordingly pleased to sanction the plan and estimate for Rs.23,750* which the Director of Industries and Commerce has submitted, and to direct that this building be constructed on the site approved for the purpose, namely along the Manantaddy Road, and opposite the Church in Doddaholageri. A sum of Rs.10,000/- has been allotted for the filature during the current year and this amount may be utilised immediately towards the construction of the building and further provision will be made in the next year's budget of the Agricultural dept. for the work.

Revised by Chief Engineer vide enclosure to Gl:S.

vide enclosure to Gl:4.

*The materials available in the present Filature building may be utilised as far as possible, so as to reduce the cost of the building now Sd.

The Chief Engineer is requested to issue necessary instruction to the Supdtg. Engineer, Mysore Circle, to see that work to the extent of Rs.10,000 is done before

the end of the current official year and that the whole building is completed as expeditiously as possible. The Chief Engineer may entrust the work to the contractors whose quotations are the lowest, as proposed by him.

D.O.No. 621

Office of the Executive Engineer,
Special Division,

Dated Mysore the 21st March 30.

FILIATURE BUILDING -CONSTRUCTION OF -IN MYSORE.

Dear Sir,

With reference to your letter forwarding copy of your letter No.D4.292/28-29 dated 27-2-1930 addressedto the Chief Engineer of Mysore, I write to intimate that the Chief Engineer in his No.11377 dated 19-3-1930 intimates that the Plan and the estimate for the work have been forwarded to the Development Secretary to Government for sanction.

As there are nearly 3 months left for the official year to close and we have to allow a Contractor one month to collect materials and the progress can at the most be secured during the remaining two months. I fear it will be extremely difficult to secure a progress of Rs.10,000/- during this year. Endeavours will however be made to secure as much as possible but as it may not be advisable to rush through the works, as time has to be allowed for masonry to set, I would request the grant for this year being limited to Rs.5,000/- and this amount can be spent if plans be received in time.

Tenders for the work have also been called for and submitted to Superintending Engineerfor orders.

Yours sincerely,

Sd. V.V. Karve,

C. Ranganatha Rao Sahib Esquire., B.A.,
Director of Industries and Commerce in
Mysore, Bangalore.

D.O. No: 622 of 21 3/30.

Copy of the above is forwarded with compliments to the Secretary to Government, Development Department, Bangalore, for kind information. The Plan and estimate may kindly be sanctioned

36

and forwarded early if the amount is expected to be spent this year on the work.

GOVERNMENT OF MYSORE.

DEPARTMENT OF INDUSTRIES AND COMMERCE.

Immediate

OFFICE OF THE DIRECTOR,

Dated, Bangalore, 4th April *1930.*

FROM

C. RANGANATHA RAO SAHIB, Esq., B.A., B.L.,
Director of Industries and Commerce in Mysore,
(Bangalore, India.)

8606

To

N. RAMA RAO, ESQ., B.A., B.L.,
Secretary to the Government of Mysore,
Development Departments,
Bangalore.

SIR,

I have the honour to enclose herewith a statement showing the grant required next year for capital expenses connected with the Government Filature. The total grant amounts to Rs 28,764 or Rs 29,000/=.

Sanction has been accorded for the construction of the Filature building at a cost of Rs 23,750/= (Vide G.O.No:D.10520-22/Seri.45-29-11 dated 25-3-30). As it has been ordered by Government that work to the extent of Rs 10,000/= should be done before the close of this official year, the grant required next year for the completion of the building amounts to Rs 13,750/= only. This sum will therefore be included in the Budget for next year.

The present Filature shed will have to be shifted to the new site for use as godowns and stores. No accommodation for this purpose will be available in the main building. The materials of the present Filature shed cannot therefore be utilised for the main building as suggested in the above Government Order. It will also not be possible to remove the Filature Shed until the machinery therein is shifted to the new building. I propose to include a sum of Rs 3,806/= in the Budget for next year for shifting the Filature shed to the new site for use as godowns and stores along with the sum of Rs 1,708/= required for enclosing the site with wire fencing. Detailed proposals have already been submitted to Government on this subject in my letter No: D4.292/28-29 dated 12-3-1930.

Seri. 45-29 8 6

P. T. O.

I have reported in my letter No:D4:1191/29-30 dated 13-3-30 that I have made arrangements to instal 8 additional basins in the Filature during the current year. If these basins prove satisfactory, their cost will have to be paid next year. A set of 6 Filature Basins which Mr.V.Ramalingam had obtained from France a few years ago are lying with him unused. He is willing to sell them. I am of opinion that these basins may be purchased for the Government Filature. I shall address Government separately on this matter. It is only necessary to state here that some provision may be made for this purpose. I propose to include a sum of Rs 4,000/= in the Budget for the next year for meeting the cost of the above 14 basins

The trend of the silk market indicates that an extension of the capacity of the Filature is very desirable. A sum of Rs 4,000/= will be necessary for expenses in connection with the installation of basins in the new building and provision will have to be made on this account in the Budget for the next year.

1. Shifting the existing Filature plant to the new building and installing ... Rs 2,000/= it there along with the additional basins.
2. Miscellaneous expenses - electric installation, water connection, boiler ovens etc. ... Rs 2,000/=

Total:- ... Rs 4,000/=.

I propose to sink a bore hole on the premises of the new Filature Building. This will help the Filature to reduce the recurring water charges and to bring down cost of production. A sum of Rs 1,500/= will be included in the Budget for sinking a bore hole and for providing it with a pump.

The President of the Municipal Council has forwarded a copy of the Resolution that compensation of Rs 500/= per acre should be given by the Department towards the value of the land. No compensation would seem to be payable as Government have passed orders that these sites should be given to the Department when required. I shall address Government separately on the matter

X in

in due course.

The total grant required for all the above items amounts to Rs 29,000/=. The necessity for the same has been explained above in each case. I beg therefore to request that sanction of Government may be obtained permitting the inclusion of this sum in the Budget of the Sericultural Section for the next year.

I have the honour to be,

Sir,

Your most obedient servant,

C Ranganatha Rao Saheb
